

GT Series--Glass Sealed NTC Thermistor

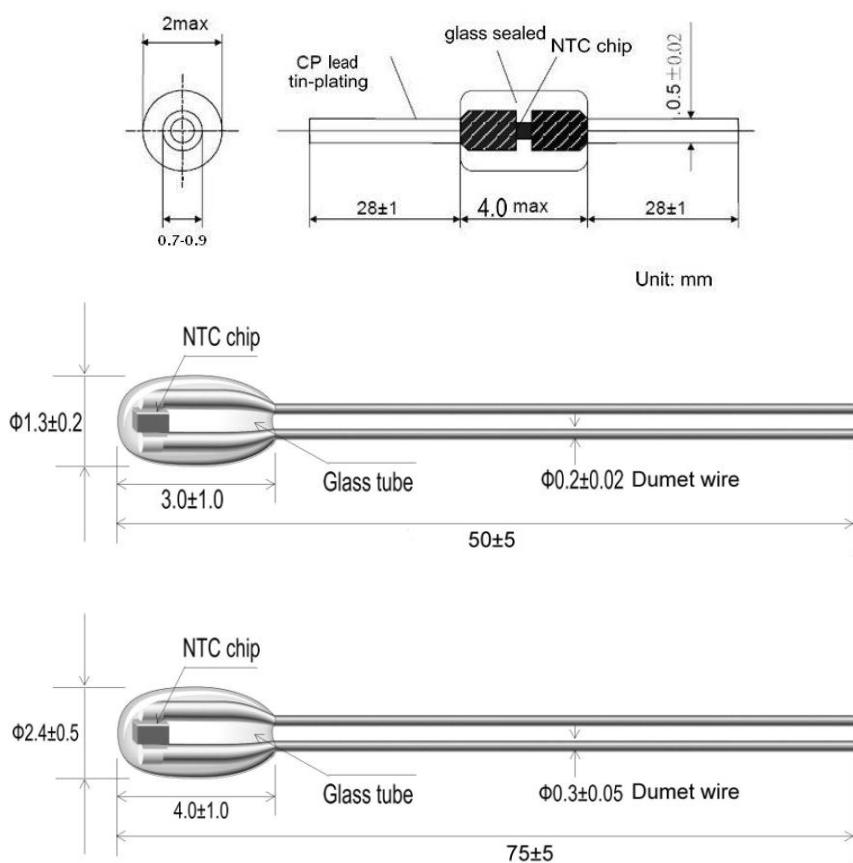

-A (AXIAL)

-R (RADIAL)

Drawing:

FEATURES

- High reliability, stability, high sensitivity
- Wide range of resistance: 0.5 ~ 1000KΩ
- Usable in high-temperature and high-moisture environments due to the glass wrapping
- Small, light, firm structure, convenient automatic installation on PCB
- Rapid response time
- Operating temp. -40°C ~ +250°C

APPLICATION

- Temperature compensation and detection for office automation facilities (e.g. Copiers, printers etc.)
- Industrial, medical, environmental protection, weather and food processing equipment
- Household appliances (air conditioners, microwave ovens, electric fans, electric heaters)
- Liquid level display and flow water measurement
- Apparatus coils, integrated circuits, quartz crystal oscillators and thermocouples
- Electronics Thermometer
- Medical instrument

Part Number Identification
